POSTAL CUSTOMER

To the Bay Village Community:

We all do the very best we can for our loved ones, but sometimes even the best families can use a helping hand and an objective opinion. When troubles, or even questions, present themselves regarding family issues, we want you to know there is help available through Bay Family Services.

Assessment and Referrals

Bay Family Services is an assessment and referral service for families who are coping with a variety of situations. Our goal is to prevent small problems from becoming big ones. There is no need to handle a potentially distressing situation on your own when help is a phone call away.

Professional Consultation

We want you to get assistance as soon as you have a question or concern. Our service, provided by a group of professional intervention consultants, is completely confidential. You can call or meet with these professionals who will guide you in the right direction to getting the help you need. We also work with your schools to provide occasional parent nights and workshops to meet the needs of your community.

Prevention and Intervention

Our school-based prevention and intervention programs, provided by the McKeon Education Group Inc., are based on the widely accepted prevention model and writings of Bonnie Benard. Our programs are developed after working with focus groups and are based on current research.

Families Are Our Strength

Families are what make Bay Village a wonderful community in which to live. We care about you and yours, and we hope that you will call Bay Family Services. We'll help you through the rough spots so that you and your loved ones stay on the road to a happy future.
